

Task Round – QA Intern (Vrit Technologies)

Dear Candidate,

Thank you for applying for the QA Intern position at Vrit Technologies.

You are now in the Task Round. The tasks below are designed to assess your automation skills, problem-solving ability, scripting proficiency, and documentation practices. Please attempt all tasks sincerely and submit within the given timeline.

Deadline: Please complete the task within 5 days of receiving this email.

Note:

- Candidates are encouraged to complete all tasks within the given timeframe, as late submissions will result in disqualification.
- Any form of external assistance, including the use of AI tools or seeking help online, will lead to disqualification.

Task: QA Task

Task Overview

Automate the signup process on the following site:

<https://authorized-partner.vercel.app/>

Requirements

- The entire signup flow must be fully automated.
- No manual intervention should be required at any step.
- The script should handle form submissions across all signup pages.

Submission Instructions

1. Share the task as Github Link
2. Ensure sharing is set to “**Anyone with the link can view.**”
3. Name files clearly (e.g., `signup_automation_script`, `README_execution_steps`, `test_report.pdf`, `demo_video.mp4`).
4. In your README, include:
 - How to run the script (commands, prerequisites).
 - Environment/setup (language, framework, driver versions).
 - Any test data or accounts used (if applicable).

Submission Link: <https://tally.so/r/3yLJz6>

 **Important Note:** Plagiarism or use of external assistance that reproduces someone else's work will lead to immediate disqualification. Please ensure the solution is your own. If you have any questions regarding environment setup (not the task itself), you may contact the hiring team.
